

HAPPENINGS WITH THE MMPI-2 IN CHINA

The Use of the MMPI-2 in China

The MMPI-2 has become widely used in China for both clinical assessment and research in psychopathology. The MMPI was originally adapted for use in China by Prof. Fanny Cheung of the Chinese University of Hong Kong in the 1980's. Professor Song Wei Zhen and J. X. Zhang, professors from the Beijing University, and Dr. Cheung conducted the MMPI normative study in the People's Republic of China. For an overview of the research and development of the MMPI and MMPI-2 in Hong Kong and Mainland China see:

Butcher, J. N., Cheung, F. M., & Lim, J. (2003). Use of the MMPI-2 with Asian Populations. *Psychological Assessment*, *15*, 248-256.

Cheung, F. M., & Song, W. Z. (1989). A review on the clinical applications of the Chinese MMPI. *Psychological Assessment: A Journal of Consulting and Clinical Psychology*, *1*, 230-237.

Cheung, F. M., Song, W. Z., & Zhang, J. X. (1996). The Chinese MMPI-2: Research and applications in Hong Kong and the People's Republic of China. In J. N. Butcher (ed.), *International adaptations of the MMPI-2: A handbook of research and applications* (pp. 137-161). Minneapolis: University of Minnesota Press.

When the MMPI revision program was complete and the MMPI-2 published in 1989, Dr. Cheung and her colleagues adapted the revised version of the MMPI (MMPI-2) in Hong Kong and Mainland China.

During this period, Professor Cheung and James Butcher conducted MMPI workshops in Hong Kong and Beijing in 1985 to introduce the MMPI to Chinese populations. Workshops on the MMPI and MMPI-2 were conducted at the Sun Yat Sen University in Guangzhou, China (1991) and Hong Kong to introduce the MMPI-2 when the Chinese standardization was completed (See Photos).

Translated by Fanny Cheung

Beijing MMPI Workshop in 1985 (James Butcher, Fanny Cheung and Song Wei Zhen (Center))

MMPI-2 Workshop Conducted at the Sun Yat Sen University in Guangzhou, China in 1991 by James Butcher, Fanny Cheung, Carolyn Williams and Song Wei Zhen.

Two recent workshops on MMPI-2 interpretation were conducted in Hong Kong and Beijing:

Butcher, J. N. & Cheung, F. M. *Workshop on the MMPI-2 and Forensic Psychology*. Chinese University of Hong Kong and the Social Welfare Department, Hong Kong, May, 2006.

Butcher, J. N. & Cheung, F. M. *Workshop on the MMPI-2 and Cross-Cultural applications of the MMPI-2*. Institute of Psychology, University of Beijing, Beijing, May, 2006.

Workshop on the MMPI-2 in Hong Kong, May, 2006 conducted by James Butcher, Fanny Cheung, and hosted by Helios Kc Lau of the Social Welfare Department of the Hong Kong Special Administration Region Government.

MMPI-2 Workshop conducted in Beijing, China by James Butcher and Fanny Cheung in May, 2006.

Research overview of Recent Developments in Hong Kong and Mainland China.

The MMPI-2 is being widely researched in China. Listed below are a number of publications of the MMPI and MMPI-2 in China to provide an overview of the broad range of topics being researched.
